Item Name	: 2Gang 5A Modular Relay Switch GWF-KS001-2 (Inbuilt RF Module GWF-KM26)
Item Code	: 7000024864
Model No.	: GWF-KS001-2
Serial No.	: TM2BWH0000001
MRP Rs. (Incl. of all taxes) :	
Rated Voltage	: 180 - 240V AC
Rated Current / Gang	: 5A
Wireless Standard	: WiFi 2.4 GHz

This high load **SMART SWITCH** can turn any plug point into a smart point. You can then control the appliance plugged into this point with your phone or with voice assistants like Alexa and Google Assistant.

SWITCH 16A
CONTROLS 1 HIGH LOAD
ELECTRICAL POINT

1. Operate from anywhere
2. Works with Google Assistant & Alexa
3. Track power usage and operation log history
4. Set timer schedule

Item Name	: 1Gang 16A Modular Relay Switch GWF-KZ101 (Inbuilt RF Module GWF-KM26)
Item Code	: 7000024863
Model No.	: GWF-KZ101
Serial No.	: TM1AWH0000001
MRP Rs. (Incl. of all taxes):	
Rated Voltage	: 180 - 240V AC
Rated Current	: 16A
Wireless Standard	: WiFi 2.4 GHz

4. Universal remote for AC, TV, Set-top box, etc.
5. Works with Google Assistant & Alexa

Item Name	: 5A Smart Relay Plug with IR GWF-SI01-IR (Inbuilt RF Module GWF-KM26)
Item Code	: 7000024866
Model No.	: GWF-SI01-IR
Serial No.	: TP1BWH0000001
MRP Rs. (Incl. of all taxes) :	
Rated Voltage	: 110 – 240V AC
Rated Current :	: 5A
Wireless Standard	: WiFi 2.4 GHz

EZ Home Solution Benefits

 Appliance Scheduling	<p>You don't need to keep a time check for switching on or switching off any appliance. You can just automate the appliances to switch on or switch off at the specified time</p>
 Voice for Appliance Control	<p>You just have to give voice commands like 'Turn off your AC' to the 'Amazon Alexa' or 'Google Home' Voice Assistants to control your appliances</p>
 Remote Appliance Control	<p>You can monitor and operate your appliances remotely while being away. You simply have to download our app 'EZ Home' on your smartphone</p>
 Energy Metering & Analytics	<p>You can track your electricity consumption in Units (KWh) on a daily basis, weekly basis and monthly basis at various granular levels like the appliance level, room level and home level.</p>
 Manual Control	<p>Not just through Mobile App or Voice Commands, these Smart Switches can easily be operated through the physical button just like the normal household switches</p>
 Scene Creation & Scheduling	<p>You don't need to remember to turn off the required appliances while you leave home. Just make that happen with the help of the Smart Scene Control feature in our EZ Home mobile app, with the help of which you can control the specified group of appliances with a single tap during a particular situation like leaving home, coming home, dinner time etc.</p>
 Firmware over the Air (FOTA)	<p>Device Firmware upgrades will be taken care by EZ Home from backend and users need not require to do anything</p>
 Multiple User Control	<p>You can easily authorize other family users to operate the appliances through our mobile app without the hassle of re-configuration</p>
 Overload Protection of Appliances	<p>Your appliance gets tripped off in case it consumes higher than the rated power. Generally when an appliance consumes more power than the rated one, it requires maintenance. Hence, the Overload Protection alert from the EZ Home App notifies a for the preventive maintenance of the appliance</p>

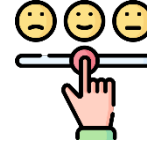

Comfort & Connectivity

They can be easily operated from anywhere with a smart phone or voice controlled

Safe & Reliable

Made with durable and sturdy materials

Customer Centric

Allows users to convert current switches to smart switches through user friendly, easy to install products

Energy Saving`

They allow you to monitor and schedule usage of any appliance

Affordable

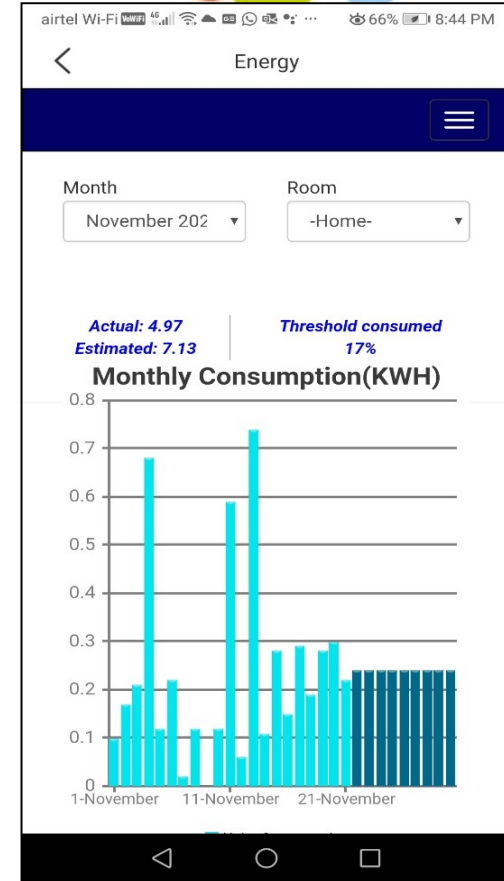

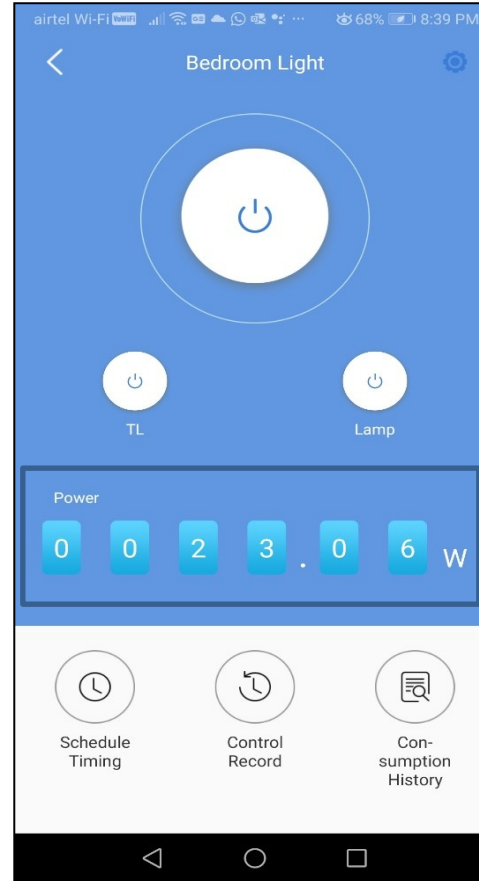

An introduction to home automation that is reasonably priced

EZ Home Solution helps you to **achieve actionable inputs to manage your electricity consumption**, by providing Electricity Consumption Analysis

- ❑ Instantaneous load
- ❑ Threshold setpoint for monthly target
- ❑ Tagging of appliance for category
- ❑ Aggregated consumption Room and Home wise
- ❑ Tracking Percentage consumption w.r.t the set

threshold & projected consumption for the current month
With the help of which customers can achieve slab benefits and thus save on the Household Electricity Costs
